TR 90

A fully automatic woodturning lathe to produce small turned pieces of 85 mm maximum diameter. Components such as knobs, handles, bottle caps... can all be produced.

It is equipped with an automatic feeder for square bars of max. length of 1000 mm, with minimum wastage of 60-80 mm on each bar.

The machine sequencing is controlled by PLC with touch screen and as standard the machine is equipped 4 x hydraulic tool holder groups: Roughing, finishing, parting off and boring.

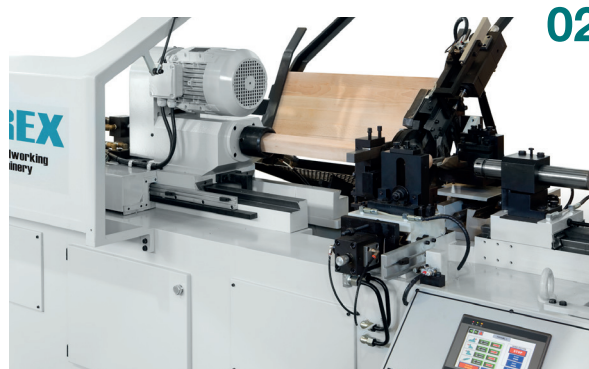

Equipment

Technical specifications

Max. stock length	1000 mm
Max. turning length	120 mm
Turning diameters	10-85 mm
Head drive motor	5.5 HP
Hydraulic motor	2HP
Total power installed	6 Kw
Weight of the machine	1.350 kg
Dimensions	3400x1650x1750 mm
